REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims pending 17-21, 54-60 corrected numbers (56-62 original numbers).

The claims 17 and 55 and 57 rejection under 35 U.S.C. 112 first para has been withdrawn since the applicants have amended the claimed and have also clarified the hetero groups , and deleted the generically claimed hetero group with 1-3 hetero atoms.

The claims 17, 20-23, 55-58 rejection under 35 U.S.C. 112 second as being indefinite since the definition of the hetero group was indefinite and also the use of nonprotic solvents was ambiguous. The applicants arguments have been persuasive. The applicants have amended the claims to delete the 3-5 heteroatoms in the ring and have also specified other non-protic solvents. The claims 17-23 and 53-56 rejection under 35 U.S.C. 103 over Barry Trost et. Al. J.Am. Chem society, Barry Trost et al Regiochemical Diversity, Barry Trost et al J..Am Chem Society, Barry Trot Organomettalics has also been withdrawn since applicants arguments are persuasive. The Barry Trot et al Organnomettalics is the only reference which teaches the chiral ligands and the ligands have a binaphthol phosphine ligands and use a palladium complex. This is not so in the instant invention and it would not have been obvious for one of ordinary skill in the art to modify it to use other metal complexes.

Thus the claims 17-21,54-60 are found to be allowable.
